Dear Property Owner:

If you have a historic structure that is already listed as a Recorded Texas Historic Landmark (RTHL) or is more than 50 years old and would qualify as as a RTHL or for the National Register of Historic Places, you may want to apply for the Windstorm Exemption Program for Aransas County 2009.

We are building on the lessons learned by the Galveston Historical Foundation in the aftermath of Hurricane Ike in 2008. The City of Rockport authorized the CHC to be the authority for this program in Resolution 09-25.

Eligible buildings will be exempt from some local code requirements and some FEMA regulations. This exemption means that you would be able to rebuild or repair your historic structure and maintain its historic integrity. You will want to have this exemption in advance of any disaster that might threaten your building.
