Aransas County has Reported Three Additional Positive Test Results for COVID-19 June 23, 2020

As of June 23, 2020, three additional positive test results of COVID-19 has been confirmed in Aransas County. That brings the historical case count to 10. Case number 9 is a male between the ages of 10 and 12 and Case numbers 8 and 10 are females in their 50's. The patients are currently isolated in self quarantine. DSHS (Texas Department of State Health Services) is supporting Aransas County in identifying any close contacts of the patients so they can be isolated and monitored for symptoms.

The (DSHS) Public Health Region 11 is reminding the public that it is conducting contact investigations on persons who have tested positive to determine possible exposure to others. If the health department has not contacted you, there is no need to take any action at this time.

The (DSHS) Public Health Region 11, Aransas County and City Officials continue to work together against COVID-19. All agencies are vigilant and reporting results for COVID-19 in the region. They are also working together to educate the public and practice social distancing.

The public can find up-to-date coronavirus information and what to do if you're sick, this can be accessed at dshs.texas.gov. Additionally, testing information is available on the same website.
