

Learn About Countywide Drainage Planning Efforts in Aransas County

Join us for a series of public meetings on February 3 and 4, 2026

Aransas County invites you to attend one of four upcoming public meetings to learn more about the Aransas County Drainage Study, a countywide effort focused on identifying drainage challenges, evaluating flood risk, and developing long-term strategies to reduce flooding and improve community resilience across the County.

Public Meeting Details

Tuesday, February 3, 2026

10:00 a.m. – 12:00 p.m.

Lamar Volunteer Fire Department
302 Bois D' Arc Street
Rockport, Texas 78382

6:00 – 8:00 p.m.

Drifter's Resort Clubhouse
4401 TX-35 Business
Rockport, Texas 78382

Wednesday, February 4, 2026

10:00 a.m. – 12:00 p.m.

Rockport Service Center
2751 State Highway 35 By-pass
Rockport, Texas 78382

6:00 – 8:00 p.m.

Rockport Service Center
2751 State Highway 35 By-pass
Rockport, Texas 78382

The purpose of these meetings is to share information about the Countywide Drainage Study, including how flood risk is being assessed, how drainage concerns are being identified, and how the County will use study findings to prioritize drainage improvements in the years ahead. The meeting is a chance for public feedback related to drainage and flooding issues throughout the County.

The meetings will be held in an open-house format with brief presentations from the study team at the top of each hour. Attendees are welcome to come and go at any time during the posted meeting hours to view exhibits, learn about the study, and speak directly with project team members. Meeting materials will be available in English and Spanish.

About the Study

This drainage planning effort is supported in part by the Community Development Block Grant – Mitigation (CDBG-MIT) Program, which is funded by the U.S. Department of Housing and Urban Development (HUD) and administered in Texas by the Texas General Land Office (GLO). CDBG-MIT funds help communities reduce long-term risks to life and property from flooding and other natural hazards by supporting planning, modeling, and mitigation strategy development.

The Aransas County Drainage Study will help the County identify drainage system needs, evaluate potential flood mitigation strategies, and prepare for future grant opportunities to advance recommended improvements into design and construction. Importantly, CDBG-MIT funding supports planning and analysis only; it does not include construction funding.

Additional opportunities for public input will occur as technical work advances and draft recommendations are developed. Community participation is encouraged throughout the study.

For More Information

Visit www.aransascountytx.gov to learn more about the study. If there are questions, please contact Aransas County by phone at (361) 790-0152, by email at roadbridge@aransascounty.org, or by U.S. Postal Service at Aransas County Road and Bridge, 1931 FM 2165, Rockport, Texas 78382.

Aransas County will provide reasonable accommodations for persons with disabilities or special needs who wish to participate. Requests should be made at least 48 hours in advance by contacting Darrell Seibert at (361) 790-0152 or dseibert@aransascounty.org.
