**Aransas County has reported eight Additional Positive Test Results for COVID-19
July 6, 2020**

As of July 6, 2020, eight additional positive test results for COVID-19 has been confirmed in Aransas County. The historical case count now stands at 43 with a total of 11 recovered. Case number 36 is a female in her 30s. Case number 37 is a female in her 20s. Case number 38 is a male in his 20s. Case number 39 is a female in her 50s. Case number 40 is a male in his 30s. Case number 41 is a male in his 70s. Case number 42 is a teenage male. Case number 43 is a male in his 60s. The patients are currently isolated in self quarantine. DSHS (Texas Department of State Health Services) is supporting Aransas County in identifying any close contacts of the patients so they can be isolated and monitored for symptoms.

The (DSHS) Public Health Region 11 is reminding the public that it is conducting contact investigations on persons who have tested positive to determine possible exposure to others. If the health department has not contacted you, there is no need to take any action at this time.

The (DSHS) Public Health Region 11, Aransas County and City Officials continue to work together against COVID-19. All agencies are vigilant and reporting results for COVID-19 in the region. They are also working together to educate the public and practice social distancing.

The public can find up-to-date coronavirus information and what to do if you're sick, this can be accessed at dshs.texas.gov. Additionally, testing information is available on the same website.
